

COMPANY PROFILE

We are a customer-focused Metal Solutions company specializing in powder coating, metal fabrication, and customized metal products.

ABOUT OUR COMPANY

A Brief Story about the Company

Built on skill, integrity, and precision, our company began with a passion for transforming metal into purpose-driven solutions. From fabrication to powder coating, we combine craftsmanship with process-driven excellence. Every project reflects our commitment to strength, durability, and quality finishes. Driven by trust and innovation, we continue to shape metal solutions that stand strong over time.

VISION

Our vision is to become a trusted leader in metal solutions by setting benchmarks in quality, durability, and innovation. We aim to shape the future of metal fabrication and powder coating through continuous improvement, advanced processes, and long-term partnerships built on trust.

MISSION

01

Our mission is to deliver reliable, high-quality metal solutions that meet the functional and aesthetic needs of our customers. We focus on precision, durability, and consistency in every project we undertake.

02

We are committed to excellence in metal fabrication and powder coating by combining skilled workmanship with proven industrial processes. Every product is built to perform, protect, and last.

03

Through continuous improvement, best safe practices, and responsible operations, we aim to build long-term trust and create lasting value for our customers, employees, and partners.

04

Customization is at the core of our approach. We work closely with customers to understand their requirements and transform raw metal into purpose-built solutions.

SERVICES

About Our Services

We deliver custom metal solutions tailored to your exact requirements. Every project is crafted with precision, strength, and attention to detail.

Powder Coating

Designed for strength and performance, powder coating extends metal life. It provides consistent coverage with excellent durability and finish quality.

Fabrication

Our fabrication service focuses on building metal products exactly as per customer requirements. We work with precision and quality metals to deliver strong, reliable, and custom-made solutions.

Customization

We specialize in custom metal fabrication, transforming raw materials into finished products based on customer specifications.

INFRASTRUCTURE & MACHINERY

Facility Overview

Our production facility is spread across a 3,500 sq. ft. factory area, streamlined for high- volume efficiency and precision handling of diverse metal components.

Powder Coating Gun

Precision Finishing with Wagner:

We are using “world-class German Technology” Wagner powder spray guns. We achieve a more consistent coating thickness and better penetration into deep corners, reducing waste and improving quality.

High-voltage electrostatic technology for superior wrap and a flawless finish.

Gas Curing Oven Size : 10 x 6.6 x 7.6 Feet

Reliable Curing:

The 10-foot gas oven allows us to handle large-scale fabrications while maintaining a steady thermal cycle for a high-impact resistant finish.

High-efficiency gas-fired system ensuring uniform heat and maximum durability.

Cyclone Booth

Our cyclone booths ensure maximum powder recovery, keeping operations clean and cost-effective for our customers.

Flat Type Booth

Size: 8 x 8 x 8 Feet

Rust-proof Mild Steel construction, ideal for large industrial panels and bulky items.

Side Open Booth

Size: 4x 6.5 x 5.5 Feet

Rust-proof MS construction, optimized for long sections and specialized side-entry parts.

THANK YOU

We are ready to assist you

We look forward to building lasting relationships and delivering dependable metal solutions that create value today and in the future.
